SOME KEY FIGURES

Workforce of around 80

+/- 78 million € turnover in 2006

Warehouse surface area: 47,300 m²

Permanent stock: over 25,000 T

MISSION STATEMENT

STEEL SERVICE CENTER

SAEY NV is an advanced steel distributor, delivering innovative products and services, including extensive machining processes. The company continuously invests in the latest logistical technologies and ICT. While SAEY operates mainly in Belgium, the Netherlands and France, it also exports its specialty products as far as central Europe.

SOLID PARTNER, COMPETITIVE SOLUTIONS

Thanks to our global purchasing activities, SAEY can offer, from stock, a vast range of quality products at competitive prices (steel bars, plates, tubes, fasteners, etc.). We focus on developing our range of added-value services such as laser cutting of tubes and the progressive introduction of steel with a high yield point. Through these activities, SAEY can offer reliable solutions to help our clients retain and even strengthen their competitive position in the market.

TEAM

Experienced, professional and customer-oriented

All team members can rely on the market and technical experience that SAEY has gathered over more than 100 years. They all receive regular training to expand and enhance their knowledge and skills.

*Our **competent team** thinks with you.*

SAEY's sales team endeavours to think with you. Fully conversant with the products and their applications, it proactively searches for solutions that meet your specific needs.

Our objective is to offer added value to your business.

FLEXIBLE SERVICE

- Immediate delivery from stock?
- On-call contract with customer inventory management?
- Long-term fixed prices?

You choose, **SAEY** provides.

The COMPANY

Magnets prevent damage to goods

QUALITY AND RELIABILITY FROM PURCHASING TO DELIVERY

All superior quality products thanks to a stringent supplier selection and control process. An elaborate ISO 9001 quality system and a correspondingly scrupulous attitude of all employees ensure a reliable service

ISO 9001

BUREAU VERITAS
Certification

SAEY is recognized by the rigorous and neutral BVQI institute.

SAEY was the first steel stockholder in Belgium to be ISO 9002 certified.

The quality system is continually adapted to changing customer expectations and to the innovations introduced by SAEY.

Quality manuals accurately describe the procedures and quality specifications.

Perfectly insulated and well-maintained warehouses ensure that the goods reach you in optimum condition.

State-of-the-art stacking and handling methods ensure maximum labour efficiency and optimum space usage.

LOGISTICS: EFFECTIVE AND FUTURE-ORIENTED

SAEY continually invests in the most advanced warehouses, machinery and information technology to achieve ever-shorter delivery times, in accordance with customer agreements. This enables you to reduce your stock without jeopardising production.

RF barcode scanning linked to the IT system.

The latest overhead cranes to facilitate goods handling.

Tautliners with self-unloading capability.

A wide ASSORTMENT

**10,000 references in
stock, including many
INNOVATIONS and
EXCLUSIVE FEATURES !**

SHEETS AND PLATES

From 0.8 to
100 mm.

SAEY holds a huge stock of **coils** for fast decoiling to customer specific lengths.

Hot

- S 235 JR + AR black/tear drop pattern/checkered pattern
- DD 11 pickled
- SAEY 235 * Laser FORM black/pickled
- SAEY S 355 MC * Laser FORM black/pickled
- SAEY S 420 MC * Laser FORM black
- SAEY S 500 MC * Laser FORM black
- SAEY S 700 MC black (weight saving)
- SAEY S 690 QL
- SAEY thin strip * Laser FORM black and pickled
- SAEY 14 Brightform pickled (deep drawing)

Cold

- DC01
- Hot dip galvanized

Electro-galvanized

SAEY = TRENDSETTER

- **pioneer in sheets for laser cutting and cold forming, with its registered trademark:**

and the largest assortment of

- **plates with high yield point
S 420 MC, S 500 MC, S 700 MC and S 690 QL**
- **thin hot-rolled strips, 1 mm in thickness**

PLATE CLAMPS

Merrill plate clamps:
superlight

BARS

Hot-rolled S 235 JR + AR

Round, square, flat, angle, U, T, beams

Cold-formed from hot-rolled S 235 JR + AR
L and U

Bright bars S 235 JRC + AR, h 9 or h 11

Free cutting steel 11 SMn30, h9 or h 11

Round, square, flat, hexagonal

SPECIALS

You need items that are not commercially available?

We source them from our worldwide network of suppliers and keep them in stock for you.

BUILDING PRODUCTS

Steel gratings and stairway steps.

Wire, cables and chains.

Threaded and weldable fittings, flanges, pipe ends, valves and accessories.

Cast iron and steel.

FASTENERS

Steel and stainless steel;

bolts, nuts, screws, washers, threaded rods, etc.

A wide range of **PROCESSING** **OPERATIONS**

YOUR ADVANTAGES:

There are many reasons why you may want to benefit from Saey's steel processing capabilities.

- Your own machine capacity is temporarily insufficient or you are facing a shortage of manpower: Saey has enough capacity to help you out.
- By combining orders from several customers Saey can reduce your residues and waste to a minimum.
- You want to use your financial and human resources for sophisticated steel processing or assembly and outsource simple preprocessing operations: Saey is your partner.
- You are now working with different suppliers, all of which have to be followed up and whose work has to be coordinated; Saey will be glad to do this for you and be your source of ready-to-use steel. With Saey as your sole contactpartner your purchasing and administration are greatly facilitated and you can focus your valuable resources on your core business.

FLAT PRODUCTS

Slitting.

Decoiling.

Blankings - blanked-to-size sheets.

Shear cutting, angle notching, bending.

LONG PRODUCTS

Sawing to size.

Deburring.

SAEY
TUBE LASER CENTER

- 2D/3D tube laser cutting.
- Tolerance: +/- 0.2 mm, +/- 0.2°.
- Allows for pointing and production of countersunk holes.
- Engraving.
- We will be happy to think with you about the development of new parts.

FASTENERS

Fixcoat: a quick hardening sealant that prevents loosening of fasteners without the use of safety washers.

Galvanizing.

OTHER PROCESSING OPERATIONS

Shot blasting, priming, hot-dip galvanizing.

Drilling, tube wire drawing.

Many other operations available, on request, through our extensive customer network.
